Winter Schedules for TCT Services - Inclement Weather Conditions

Tuolumne County Transit has winter schedules that will be implemented when weather conditions warrant.

Snow, heavy rain, high winds or other weather activity that makes delivery of transit services unsafe will result in service delays or cancellation of services in part or altogether.

Winter conditions will primarily apply to Route 2 serving Twain Harte, Sugar Pine, Mi-Wuk and Sierra Village. However, the system as a whole may also be affected.

Winter conditions affecting Tuolumne County Transit services will be communicated via radio, local media outlets, Facebook, Twitter and the Tuolumne County

Transit website. Please check these sources when winter conditions are present for the latest updates.

Please expect service delays during severe weather conditions!
